

Masterplan

Beautifully different and surrounded by space and greenery, Bloomfield Estate is no ordinary new address.

Distinctive from the outset, its carefully considered design features a glistening central waterway and huge, half-acre-plus blocks that encourage thinking on a grander scale. Plan your vegetable garden, work in the shed, take a refreshing dip in your pool or just sit back, content in the knowledge that such boundless living is all just moments from the delights of nearby Warragul and the wider Gippsland region.

This exclusive address is limited to just 95 lots – all of which range from a generous 2,000 sqm to a vast 4,000 sqm. Located in the state's south eastern growth corridor, the region is enjoying significant yet sustainable growth, making it an immensely popular choice for discerning buyers yearning for that envied blend of peace and peace of mind.
